

APPLICATION FOR AIRCRAFT NOISE ASSESSMENT

IN ACCORDANCE WITH THE AIR NAVIGATION (AIRCRAFT NOISE) REGULATIONS

PRIVACY STATEMENT: Airservices Australia administers aspects of the Air Navigation (Aircraft Noise) Regulations under delegation from the Department of Infrastructure and Transport (DIT). Personal information collected on this form will be added to Airservices' Noise Regulations database, and may be passed to DIT in accordance with Airservices' legislative responsibilities. The information will be used only for the purpose of contacting you in regard to noise issues related to your aircraft. Airservices will not use the information for any other purpose, and will not disclose it to any other party, other than DIT, without your consent unless otherwise authorised or required to do so by law.

To be completed by Applicant and sent to address over page (also refer to notes over page)

- This Application relates to (tick)
- Addition of an aircraft to the Australian Civil Register
 - Change of ownership of aircraft
 - Modification of an aircraft which may affect its noise characteristics (Note 1)
 - Operation of a foreign registered aircraft in Australia (Note 2)

Aircraft Make/Model Serial No. Reg No. (Note 3)

Country of Reg Year of Manufacture Date of First C of A (Jets only) / /
(dd) (mm) (yy)

Maximum Takeoff Weight kg/lbs (cross out not applicable)

Engine Make/Model No. of Engines By-Pass Ratio (Jets)

Are Engines Hush-Kitted YES NO If YES, Make/Model

Propeller/Rotor Make/Model (if applicable) No. of Blades

Certificate of Airworthiness Category(s) (Australian Reg Only)

Main purpose for which the aircraft will be used

If the Aircraft is designed for agricultural/aerobatic/fire fighting, will it be used exclusively for that purpose YES NO

Is the Aircraft Noise Certificated YES NO Unknown If YES, please supply the following details: (Note 4)

- Noise Certification Standard:
- ICAO Annex 16 Vol 1 Chapter
 - FAR Part 36 Stage/Appendix
 - Other

Attach copy of noise certification data (Noise Certificate or relevant pages from Flight Manual) to Application

Applicant's Name

(if you are not the owner or operator, please provide evidence that you have authority to apply. (Note 5)

Address (for correspondence)

Company Name (include ABN or ACN)

Telephone No. Fax No. E-mail

Aircraft Operator's Name and Address (if not Applicant)

Is the owner or operator a Corporation? YES NO

Signed (Applicant).....

Date / /

Airservices Use Only

The above aircraft has been assessed for compliance with the Air Navigation (Aircraft Noise) regulations and is regarded as eligible for registration and operation in Australia on the following basis:

Compliance Status

Signed (Manager Environment Monitoring)

Date / /

Notes:

1. Modifications which may adversely affect the noise characteristics of the aircraft include, but are not limited to:
 - o engine power increase
 - o propeller change
 - o weight increase
 - o exhaust muffler change
 - o other changes affecting flight performance

Applicants are to include an attachment to this application showing details of the existing configuration of the aircraft and the proposed modifications.

2. For foreign registered jet aircraft, details of proposed routes, Australian destination ports and any proposed Australian sectors should be submitted with the Application.
3. State the aircraft registration mark. If the aircraft is not currently registered, state proposed registration mark if known.
4. Aircraft noise certification information may be found in the Aircraft Flight Manual, or obtained from the aircraft manufacturer.
5. Third party applicants require written authority from the owner or operator to make noise assessment applications on their behalf.

Special Note

Eligibility to operate the aircraft in compliance with the Air Navigation (Aircraft Noise) Regulations does not override any conditions on operation of the aircraft which have been specified under any other Acts, Regulations, Orders or Instructions administered by Airservices Australia, the Civil Aviation Safety Authority or other relevant statutory authorities. It does not imply that the aircraft has authorisation to operate during the curfew period at a curfewed airport.
